XERF™

WELCOME TO

Structural Skin Tightening

Unlike conventional RF treatments, a XERF treatment delivers RF energy deeper into the skin-reaching the shallow, middle, and deep layers—where real, lasting change begins.

REDUCES SIGNS OF AGING

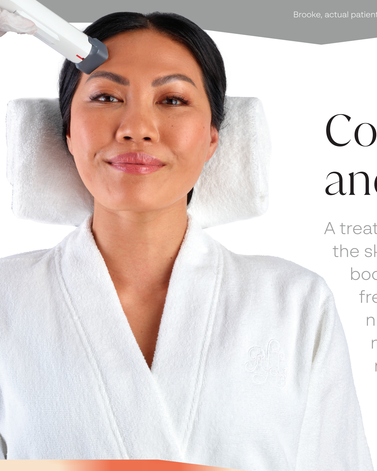

IMPROVES SAGGING SKIN

BUILDS COLLAGEN TO TIGHTEN SKIN

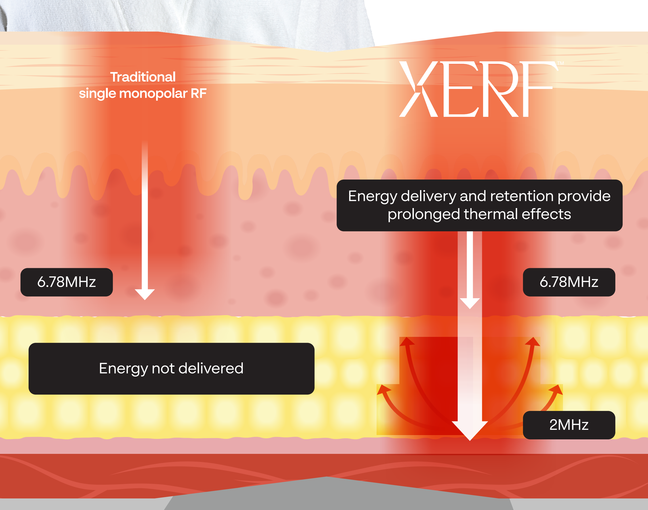

Brooke, actual patient

Comfortable and effective

A treatment that delivers all the skin tightening, collagen-boosting power of radio frequency energy, with no numbing, no needles and no downtime. Just visible results, backed by science and designed for comfort.

More than skin deep

True skin transformation doesn't happen at just one level—it happens at every level. That's why we've created the **world's first multifrequency monopolar RF treatment.** By combining both **6.78 MHz and 2 MHz** frequencies, the XERF system can deliver energy not just deeper, but exactly where you need it most, creating smoother and tighter skin.

Real patients. Real results.
